What is agile

agile adjective

ag·ile | \ 'a-jəl , -jī(-ə)l  \

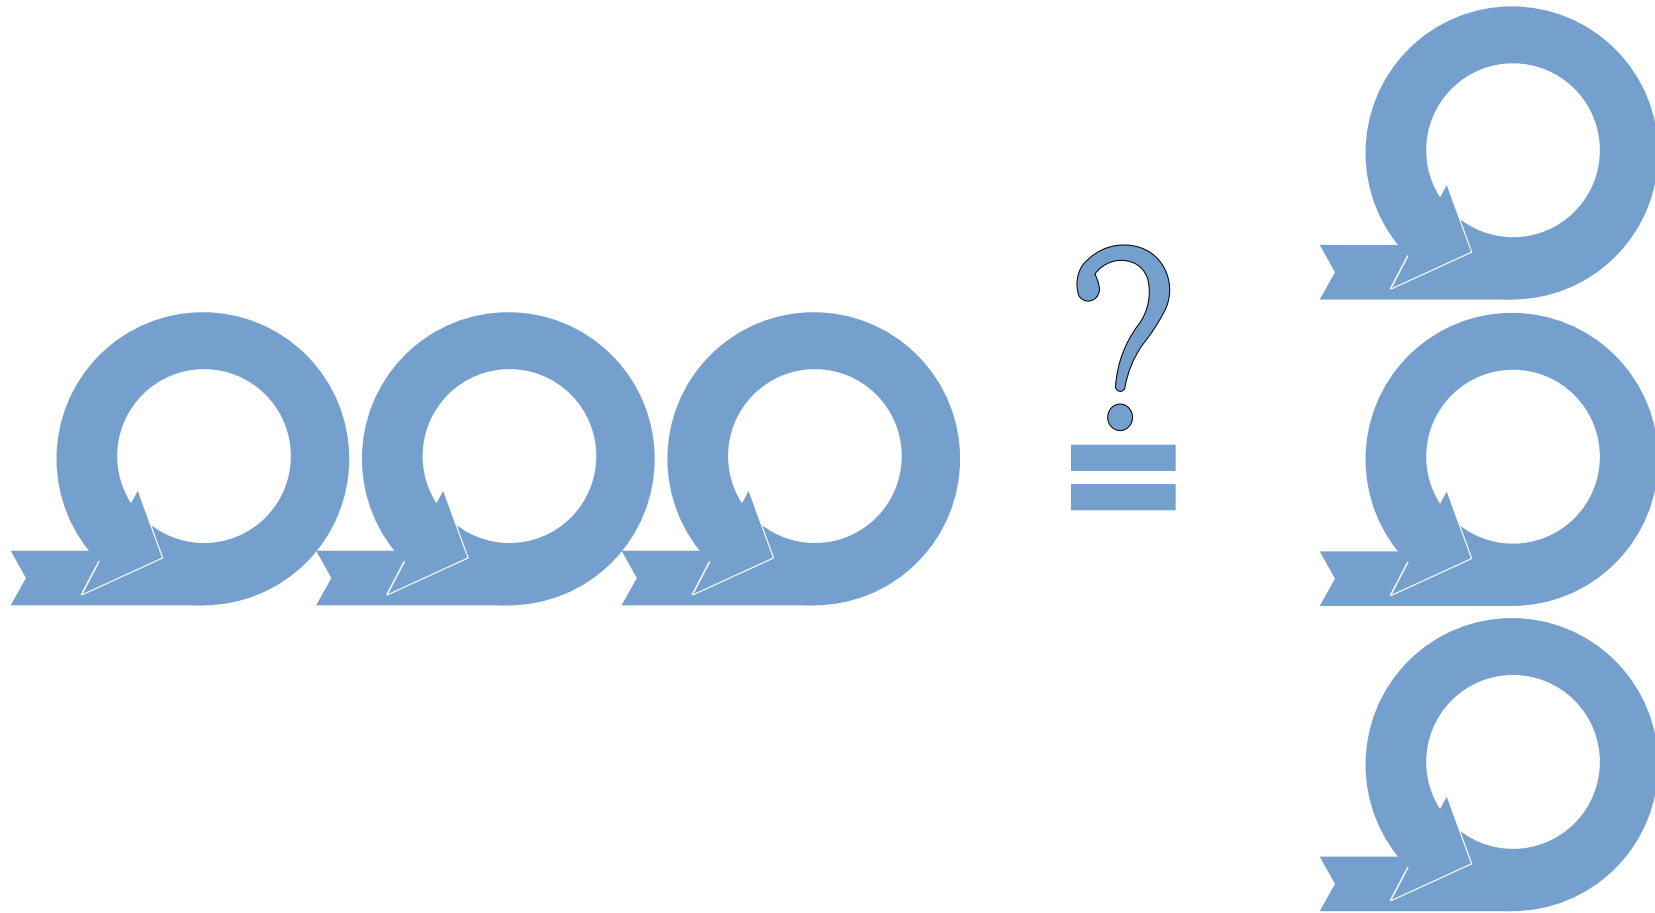

Definition of *agile*

- 1 : marked by ready ability to move with quick easy grace
// an agile dancer
- 2 : having a quick resourceful and adaptable character
// an agile mind

What is scaling

Agile at scale

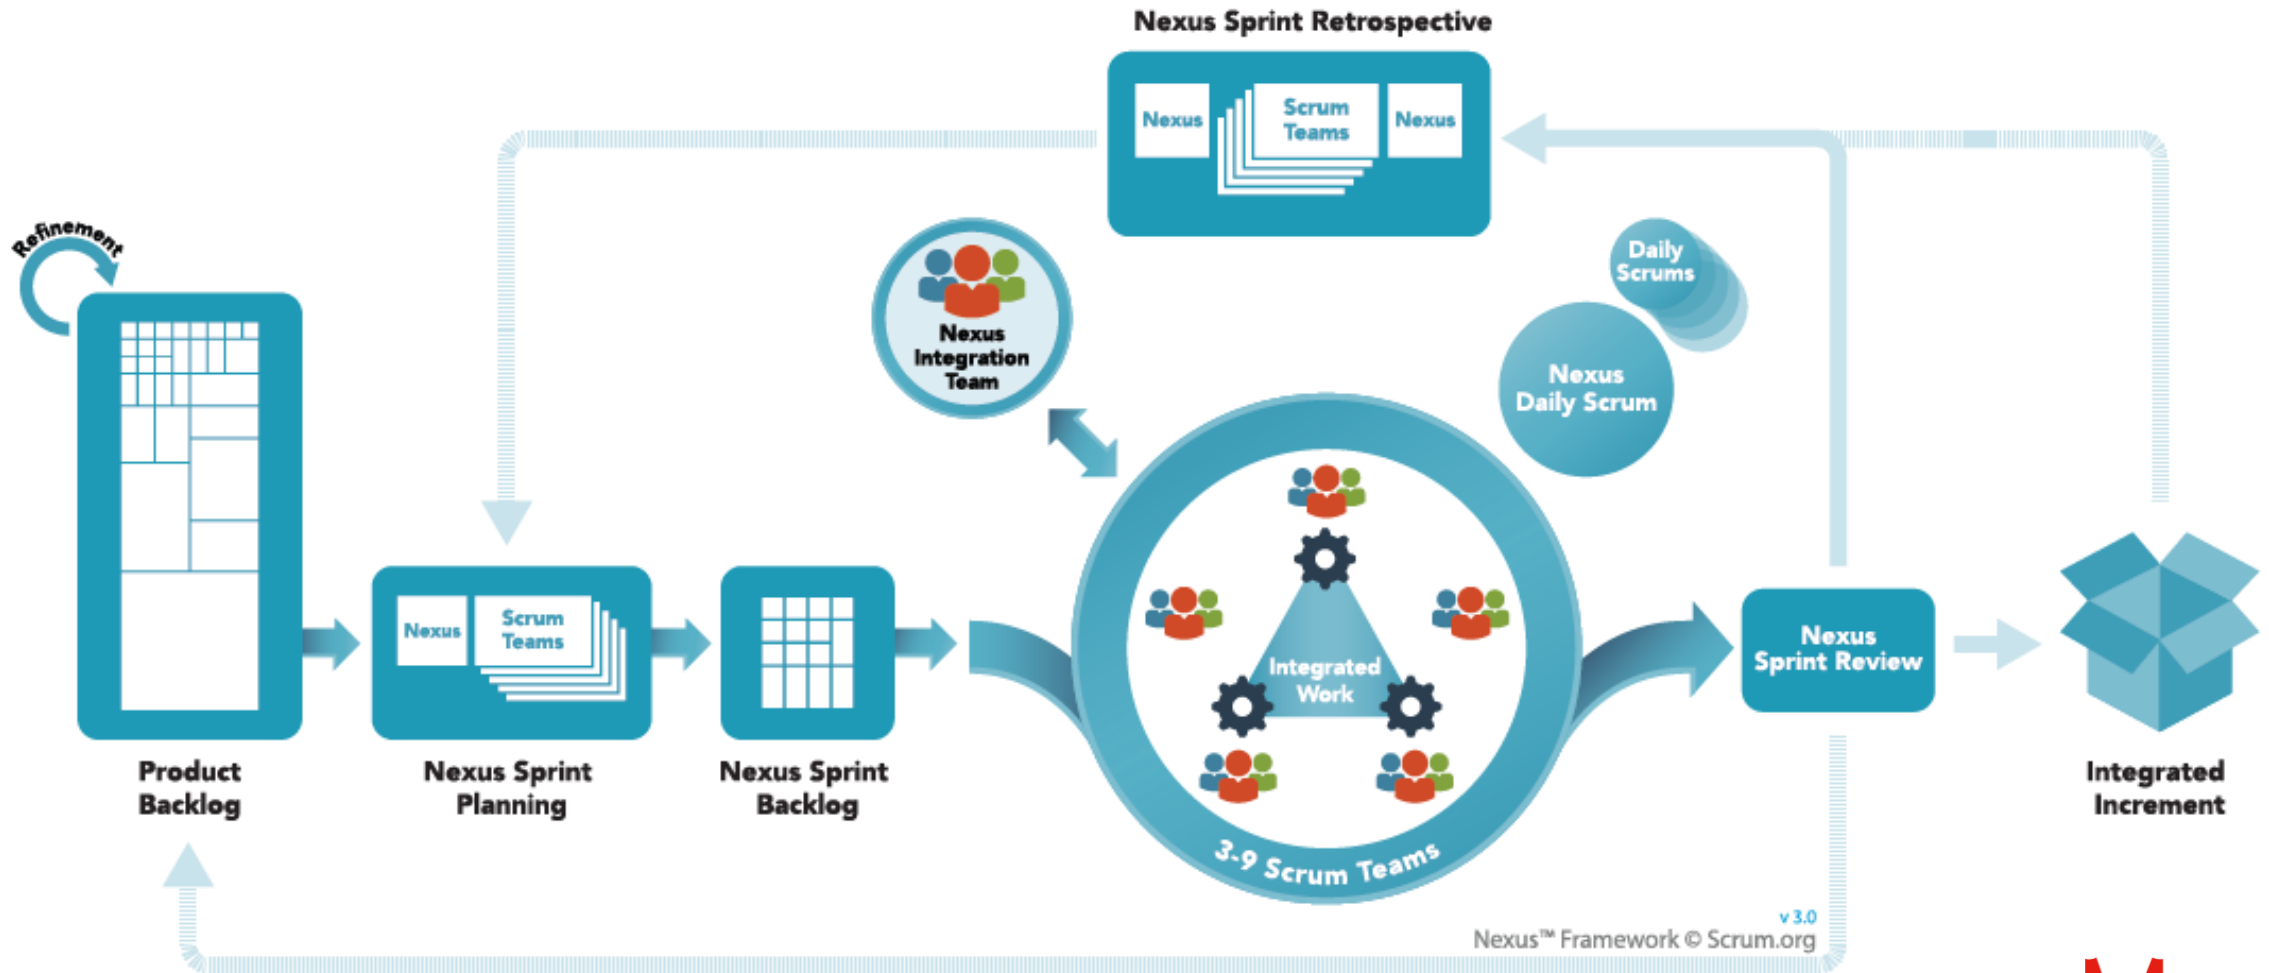

Scaled agile frameworks

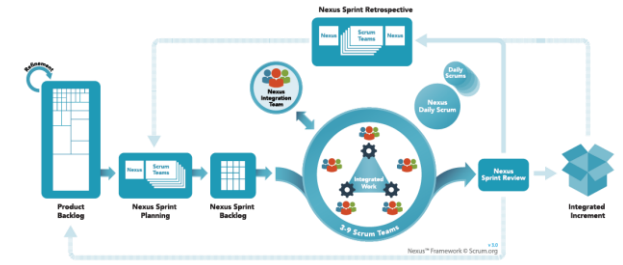

- DAD / DAD 2.0
- DSDM
- Spotify
- Stage-gate-agile
- Combination
- Home grown...

Nexus

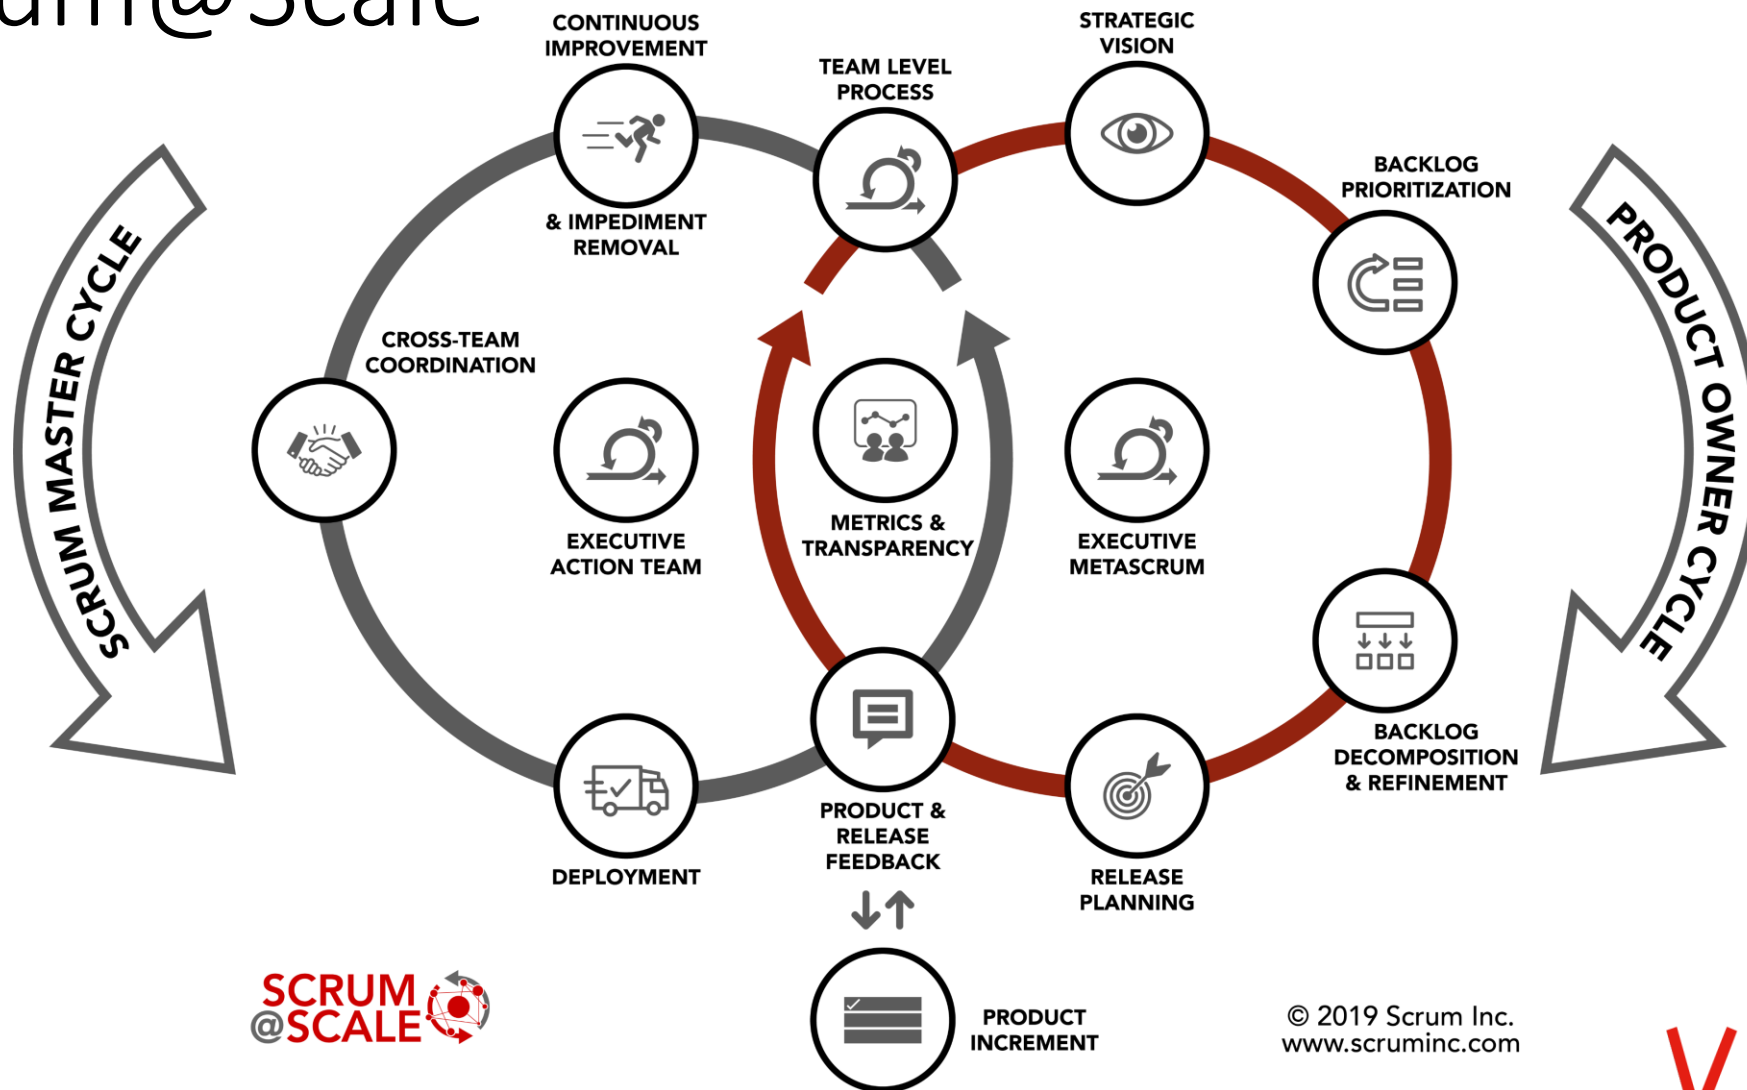

Nexus – in brief

- Pragmatic collection of experience from Scrum and scaled agile
- 3-9 Scrum teams
- Integration team (PO, SM + some team members)
- Nexus+ combines more Nexus into one bigger system
- Simple structure – simple to get started
- Nicely captures the essence of team autonomy and accountability
- Postpone some of the structural challenges to later
 - product definitions
 - ideal value stream
 - possible synergies
 - organisational design

Scaling 250 people

erland & Scrumline 1993 - 2018

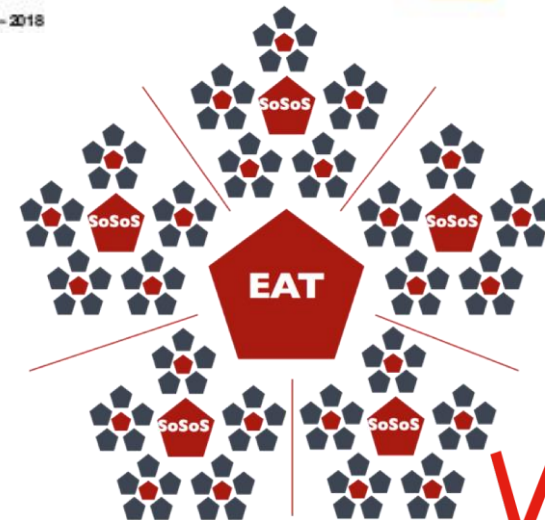

5 SoS's with 2, 3, 4, & 2x5 Teams

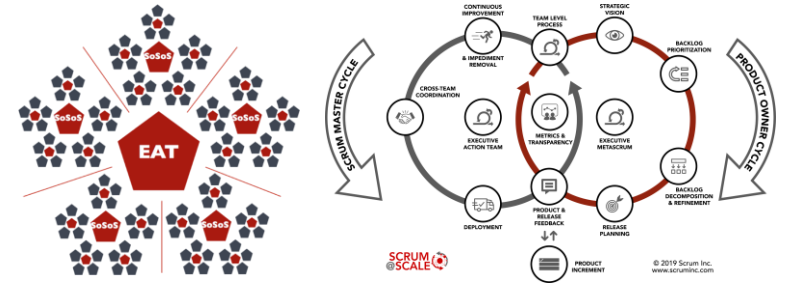

3 SoSoS's with 10, 13, & 15 teams

ng 2019

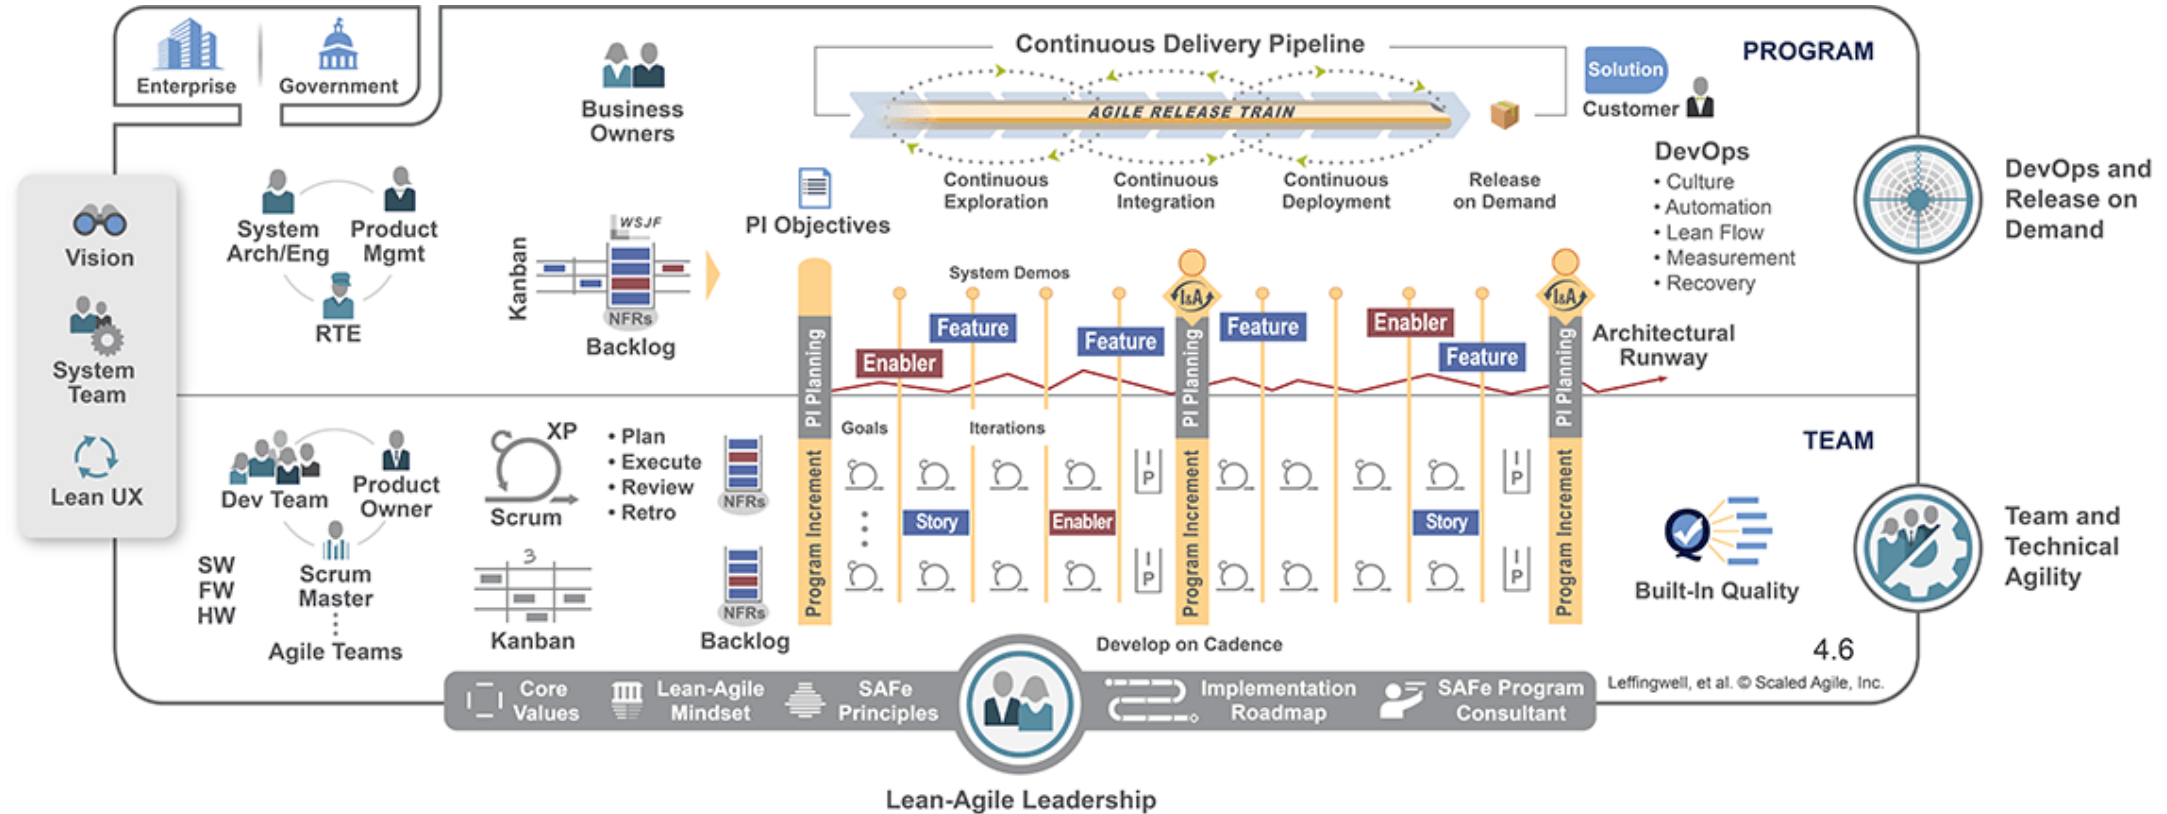

VILMA Consulting

Scrum@Scale – in brief

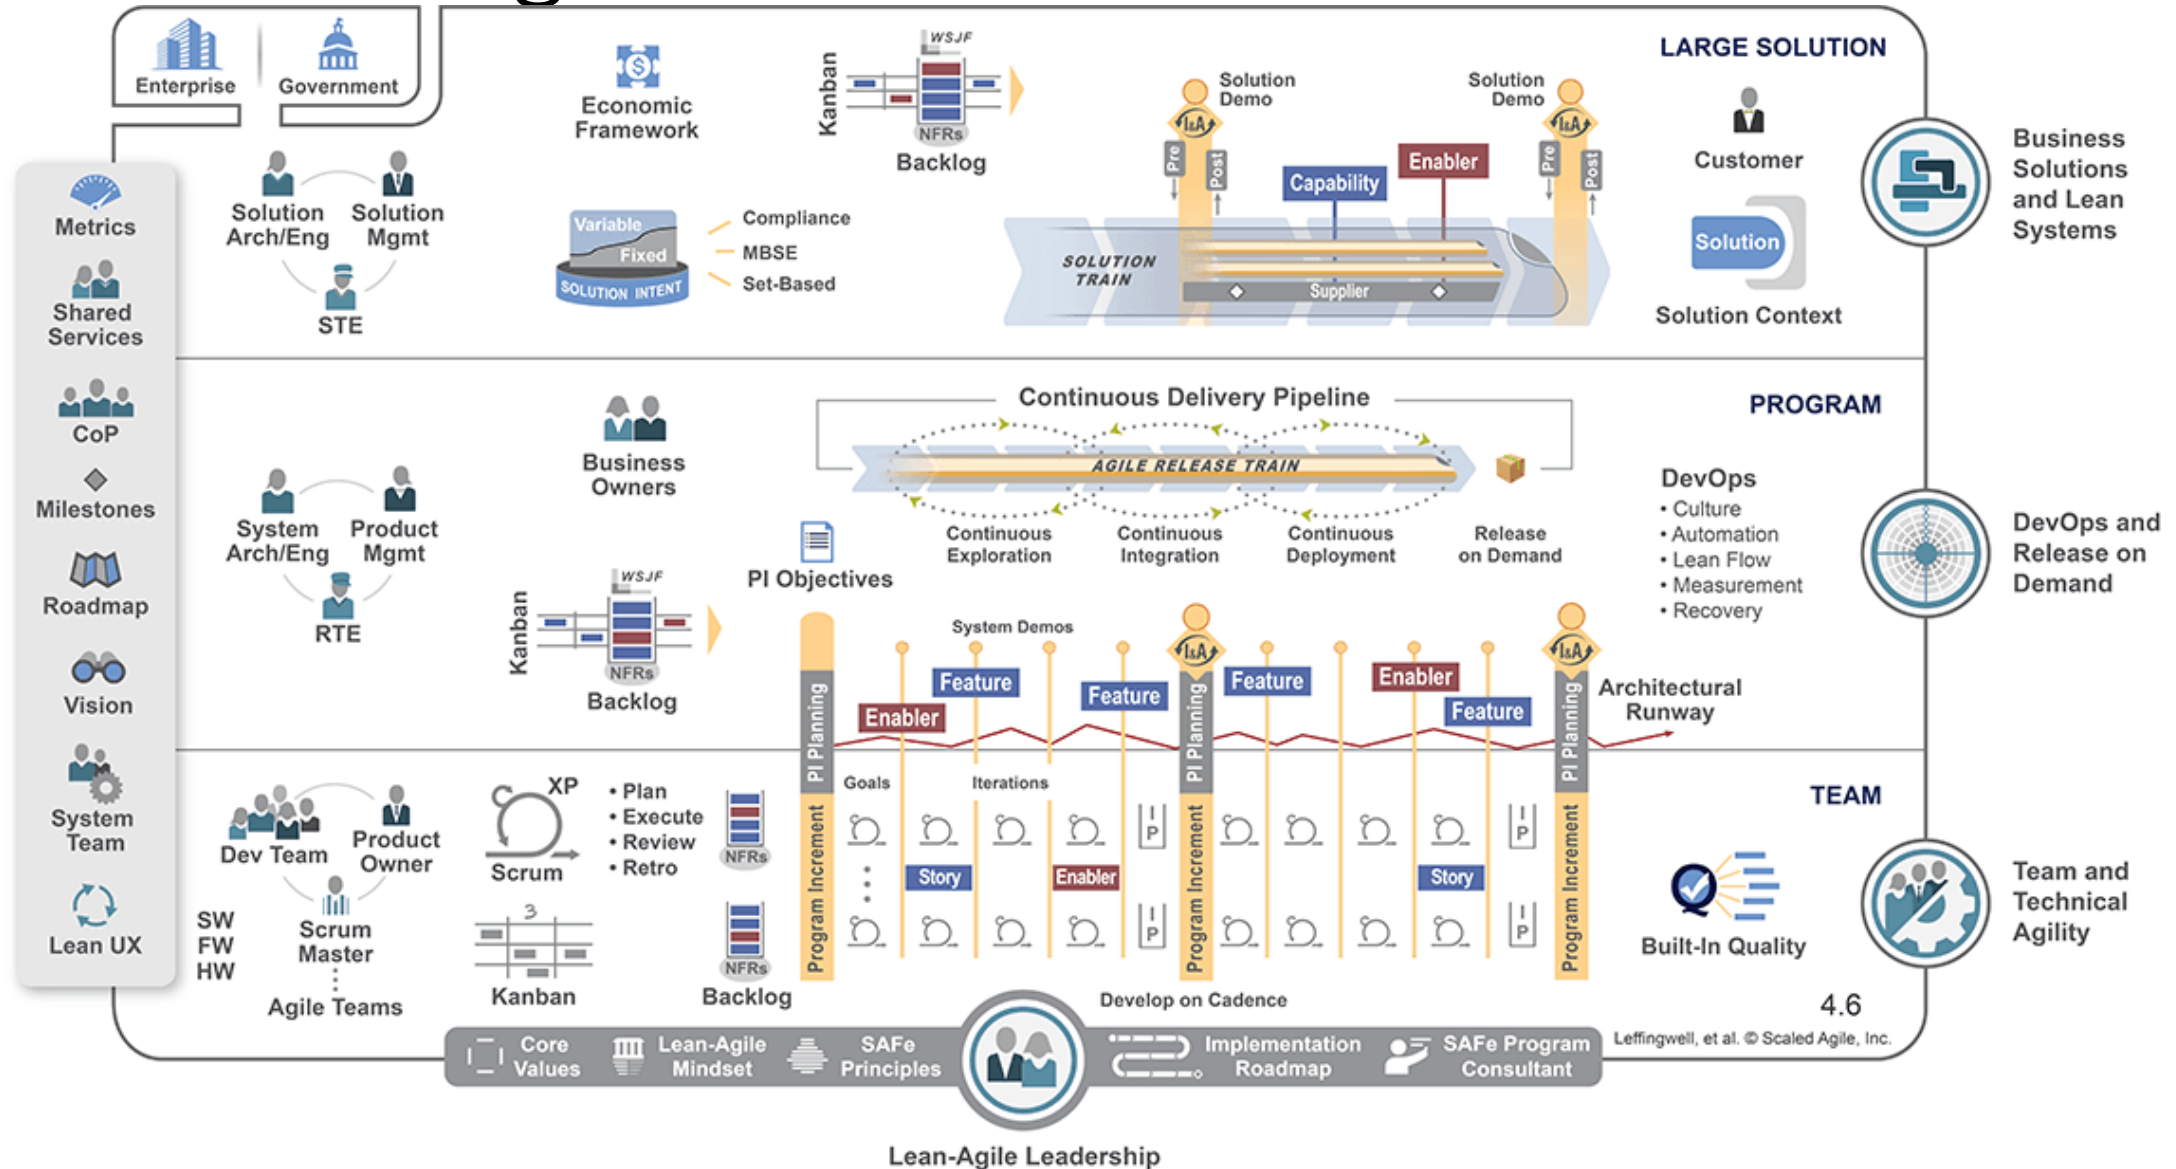

- Pragmatic collection of experience from Scrum and scaled agile
- 2+ layers of Scrum teams
- EAT – for enabling more efficient value delivery
- EMS – for a sufficient and consistent product backlog covering all teams
- The scaling structure is a repetition of the team structure, only emphasising the Product Owner's value add
- Scale with known patterns (low risk)
- Focus of transparency, quality, accountability and continuous improvement
- Emphasises the importance of the Product Backlog (Doing the Right things)
- Requires diligence of the Scrum process (sloppy somewhere, and get sloppy output)
- 'Promise' to deliver double the work in half the time.

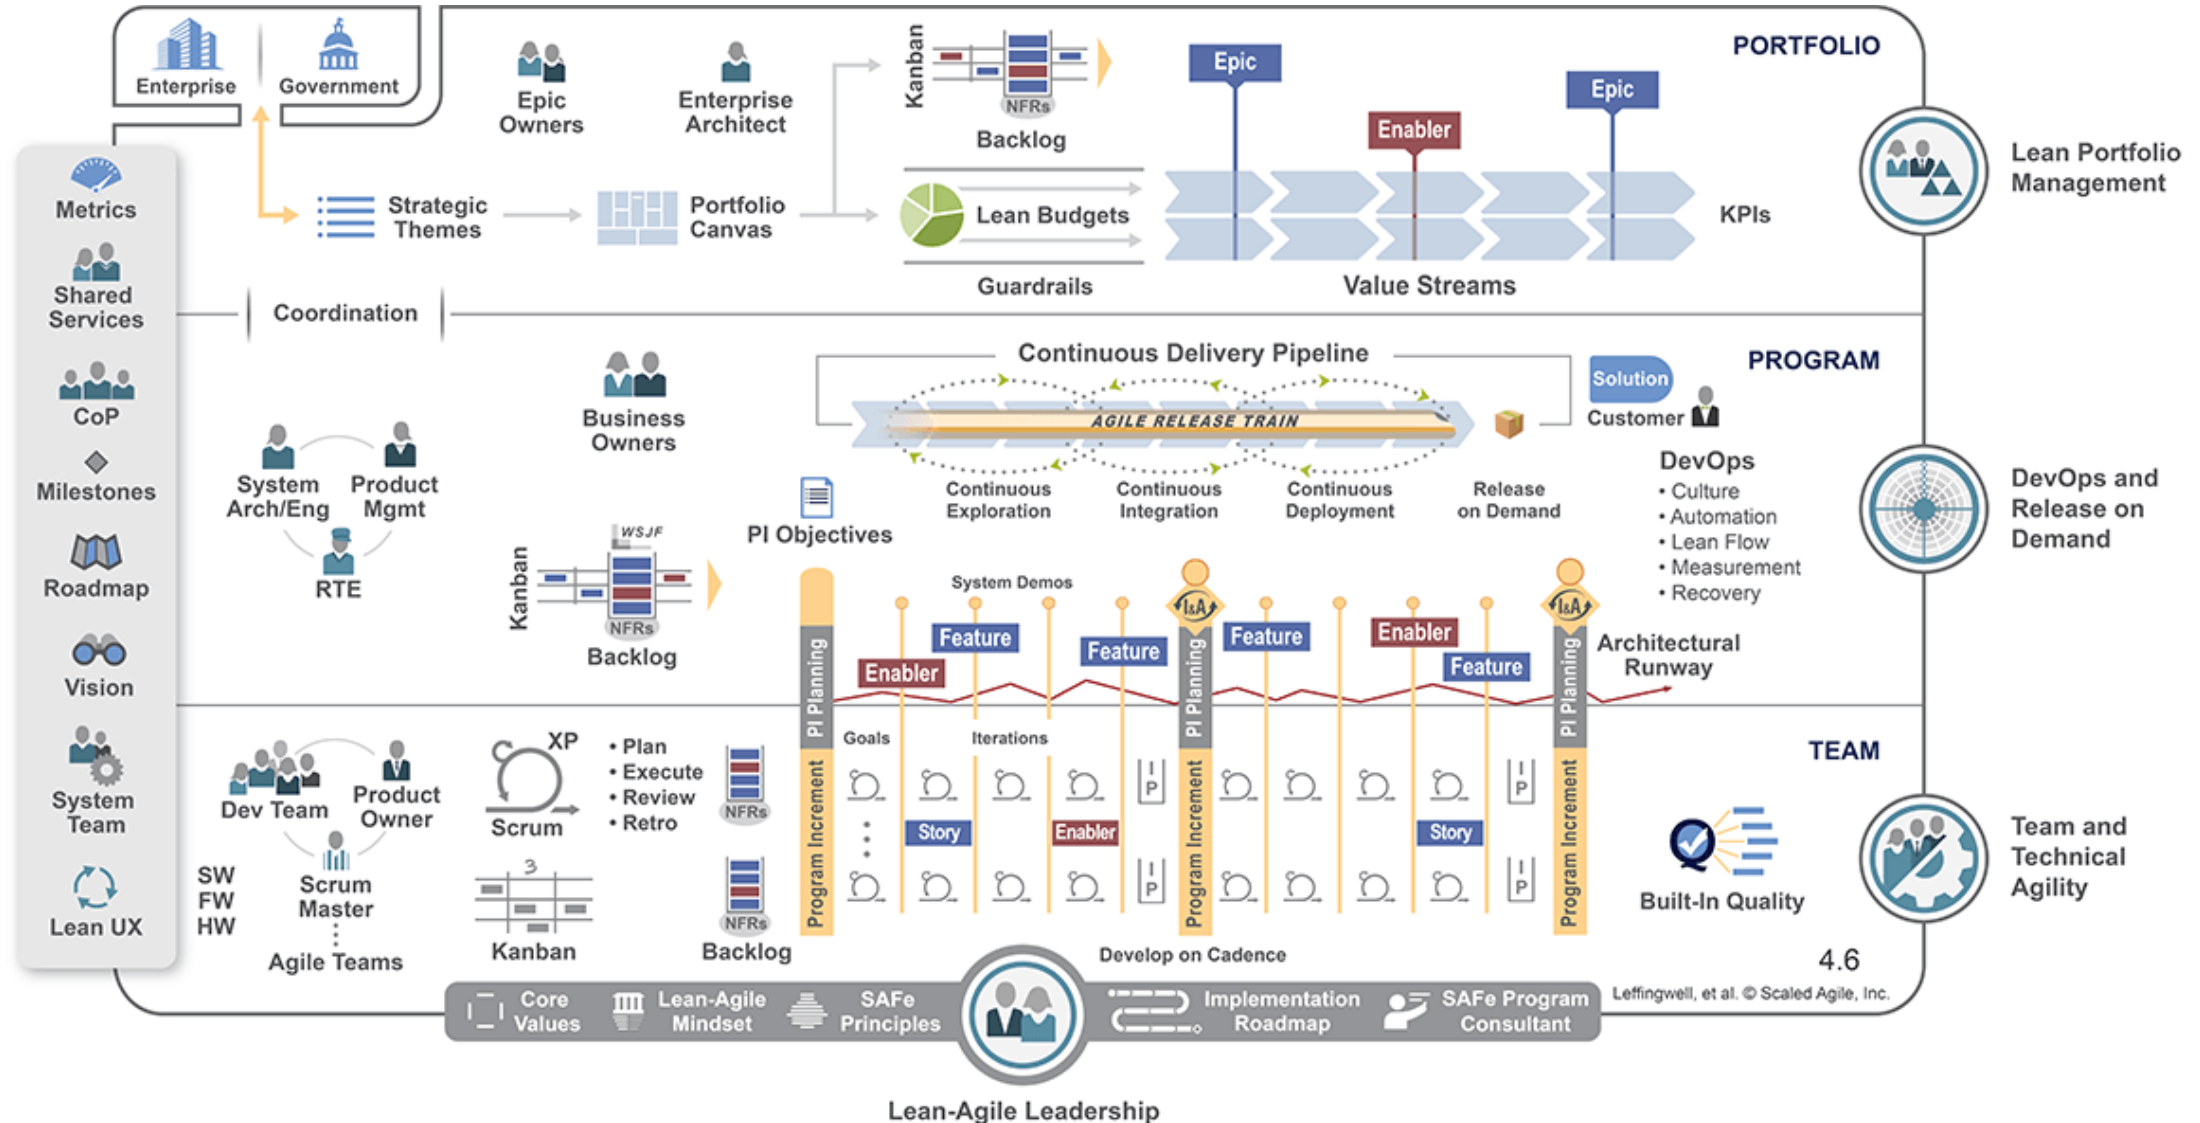

SAFe – Essential

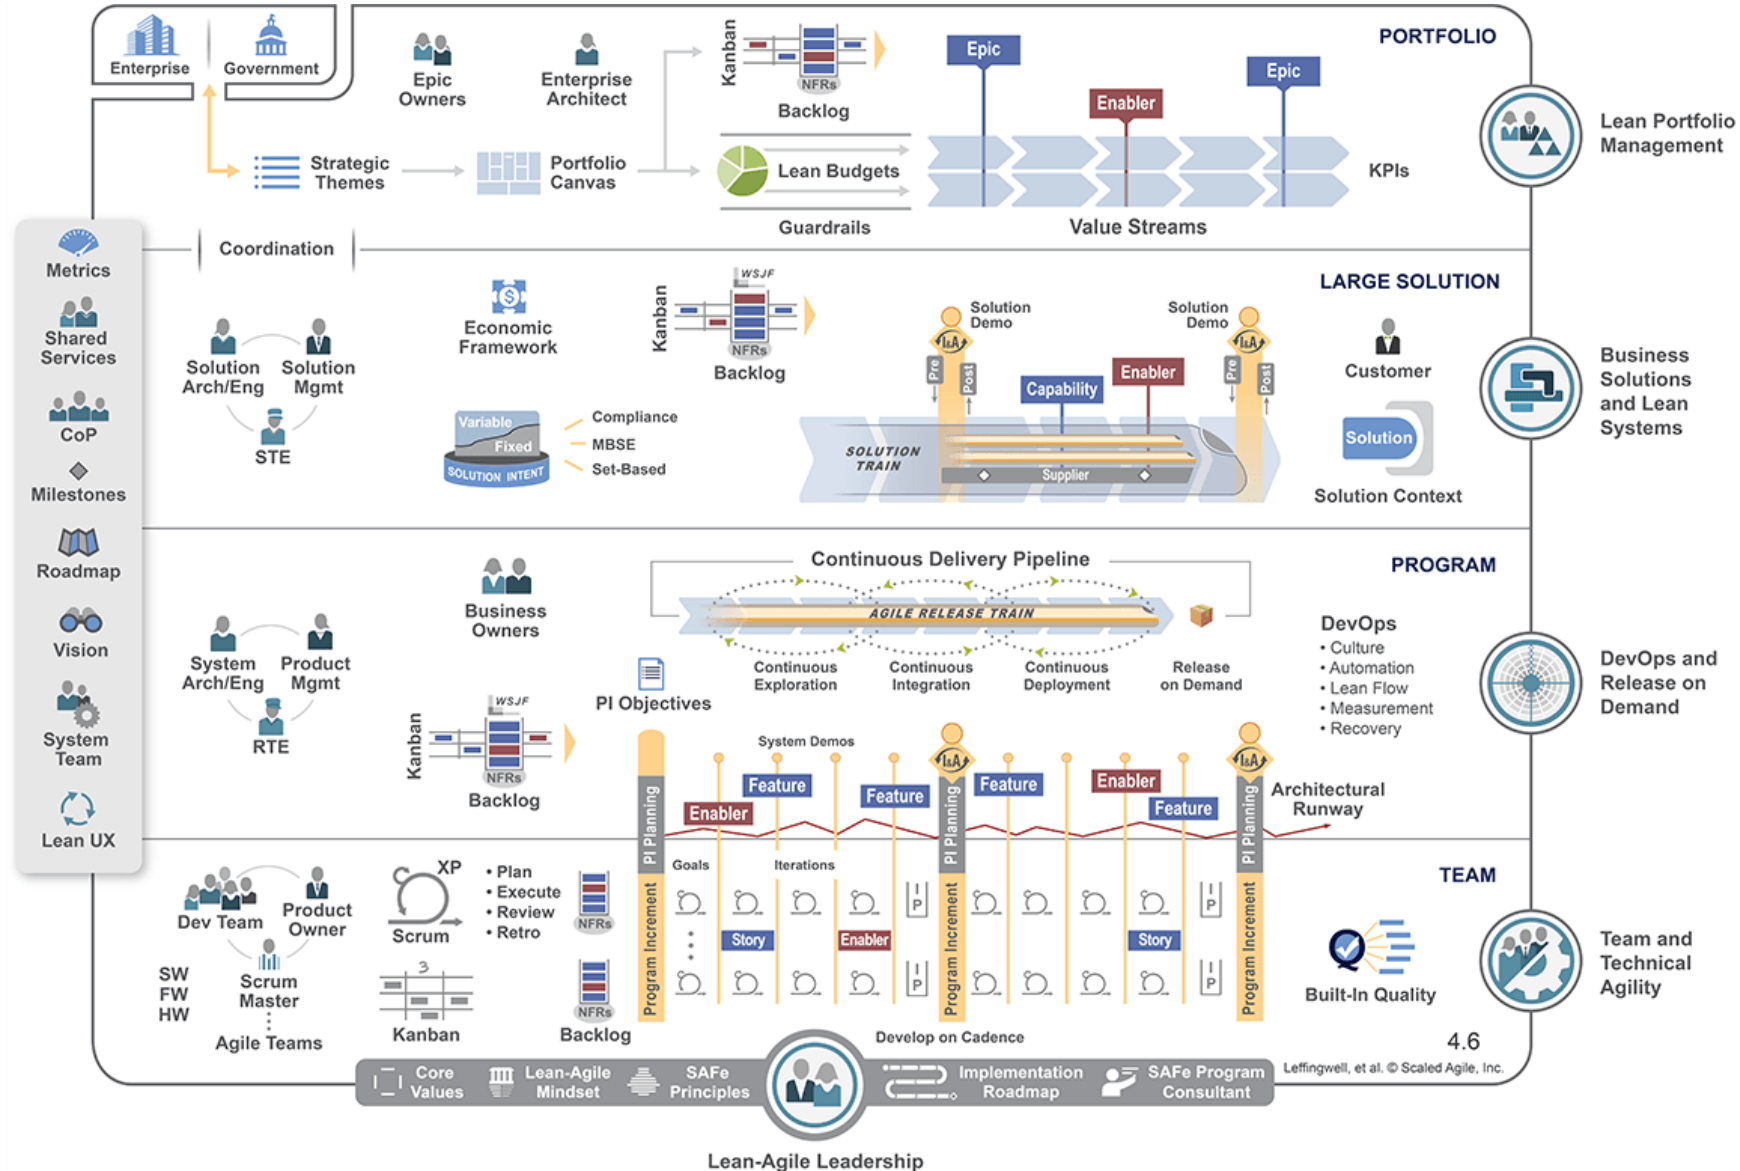

SAFe – Large Solution

SAFe – Portfolio

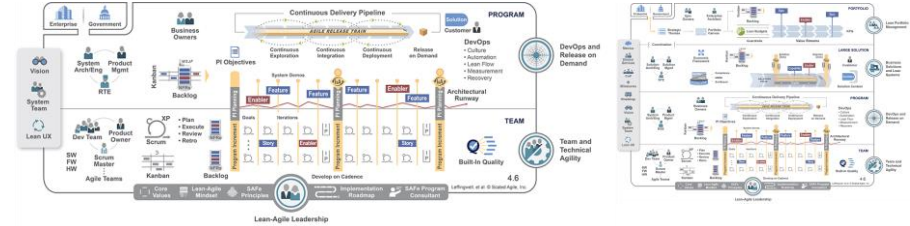

SAFe – Full

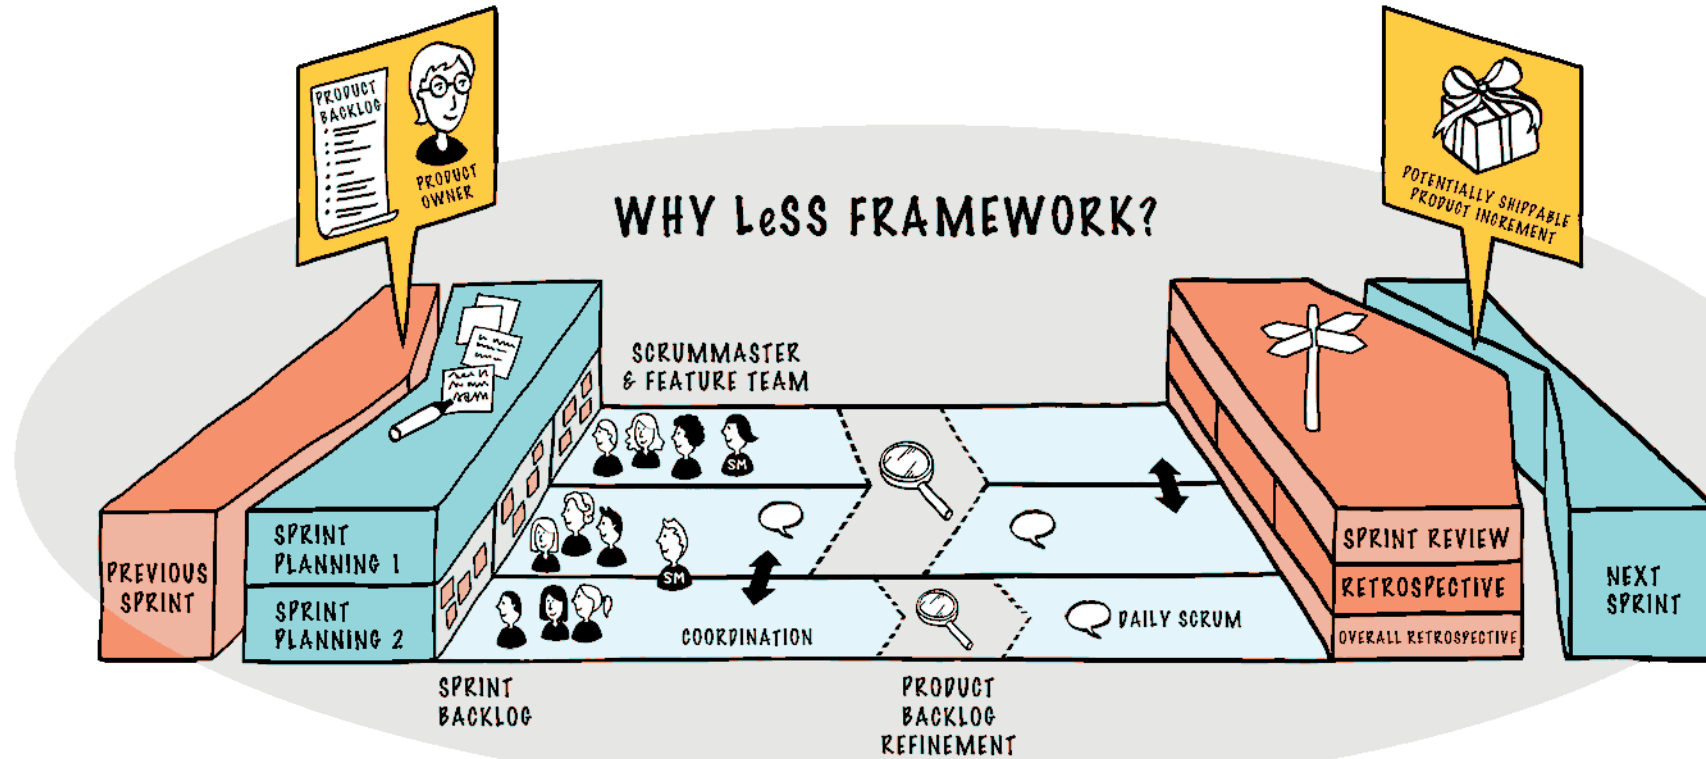

SAFe – in brief

- Build on Lean, agile, portfolio management experiences
- Structures business value for prioritisation e.g. WSJF, WIP limits
- Central governance of direction and architecture (e.g. System team)
- Detailed implementation map
- SAFe Essential (2 levels)
SAFe Large (3 levels)
SAFe Portfolio (3 levels)
SAFe Full (4 levels)

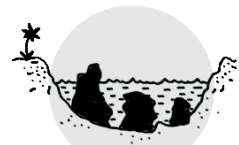

- Shared cadence top to bottom
- No one-size-fits-all at team level
- Assumes variability therefore ‘only’ forecasting a PI ahead
- Delivery into Product Backlogs is nursed
- Highly structured refinement including all

LeSS Huge

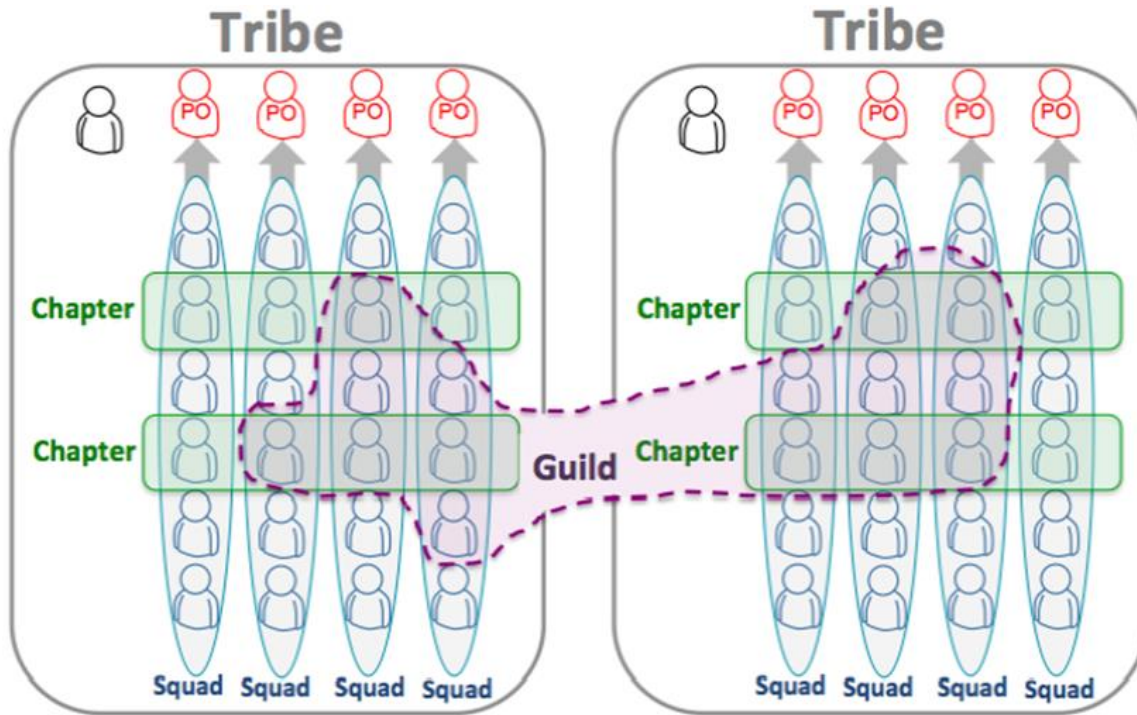

<http://less.works> CC BY-ND

LeSS – in brief

- Scaling agile – by descaling organisation
Then forming new structure
- Foundation is agile manifesto and Scrum.
- Broad product definition
- One Product Owner for one product
- Pragmatic collection of experience from Scrum and scaled agile
- LeSS Huge combines product areas
- Simple structure – simple to get overview
- Build on team autonomy and accountability
- Require upfront
 - product definitions
 - C-level support and priority
 - steep learning curve
 - job safety (not role safety)

“Spotify”

- Minimum Viable Bureaucracy
Customer value driven
Autonomous teams
- Wasn't intended to be a framework model at all
- Squad ~ team
Tribe ~ solution area, co-located
Chapter ~ CoP (skill)
Guild ~ CoP (interest)

Across SAFe, Scrum@Scale, Nexus, LeSS

	Team level	# levels	Finance/ budget	# Roles	Backlogs	Coordination
	Any	2,3,4	Portfolio / ART funded	9-15	Portfolio Large Solution Program Team	System Team RTE STE
	Scrum	2+	Fixed (teams funded)	5-9	Enterprise Team EAT	EAT EMS
	Scrum	2,3	Fixed (teams funded)	4	Product Nexus Sprint	Nexus Integration Team
	Agile	2,3	Fixed (teams funded)	3-4	Product	-

What does Danish organisations do?

Data collection

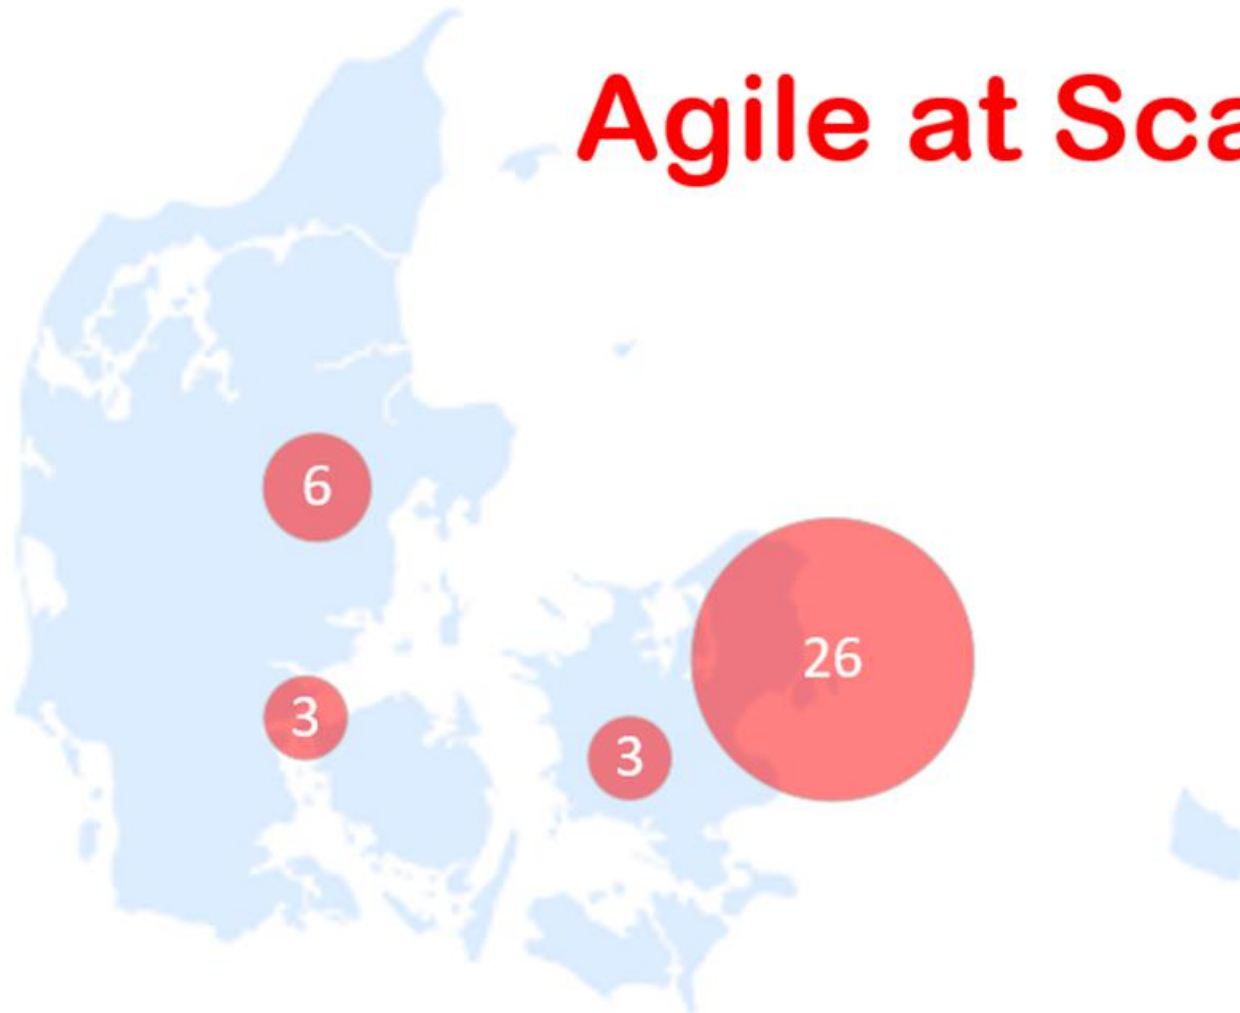

- Feedback from 100+ organisations
 - Name of organisation
 - Which variant of scaling framework (or combo) is used
 - Size of the scaling, that is number of people, teams, trains, tribes/ guilds that currently work in the scaled agile setup
- Of these
 - 38 scale agile + 2 starting H2 2019

Business domain

Domain	Organisations
Financial	9
Insurance	6

Potential for scaled agile in Denmark

- If all regions scale like the Capital Region
 - 260 scaled agile organisations in Denmark
 - 60,000 people working with scaled agile
- Most organisations started scaling within past few years
 - impact of access to local learnings
